ARMY TO BUILD R. R. ON BORDER

St. Associated Press.
EL PASO, Tex., Aug. 13.—Construction of a highway along the Mexican border and the laying of narrow gauge tracks to connect supply depots and army posts with important border military stations are two projects that recently have attracted the attention of officers of the army corps of engineers in this section. Announcement has been made at military headquarters here that engineer officers are surveying conditions along the border with a view to utilizing light railway equipment brought back from France in constructing lines along the border.

First thing you know cork screws will be exhibited in the museums.

PRICES OF FOOD READY AUG. 18

The price list for army food supplies which are to be sold direct to the public through the postoffices will be sent to the postmasters throughout the country at once and will be available for consumers on August 18, according to announcement from the postoffice and army authorities. Under the department's price list the consumer will be able to buy bacon for 25 cents a pound, baked beans for 5 cents a pound, flour at 25 a hundred pounds and other commodities at correspondingly low prices.

Whether a certain amount of army supplies will be allotted to each city or whether consumers will order through the postoffice and the supplies will be shipped from San Francisco here it is not known definitely, but the announcement that the parcel post weight limit had been increased to 150 pounds is taken by officials to indicate that the food is to be shipped by parcels post to each consumer from the nearest supply point.

The sale of the army supplies is expected to bring down prices on some commodities, according to government officials but every precaution is being taken to keep the supplies from falling into the hands of a few persons who would profiteer on them.

SMOMES SENT NAVY BY PLANE

St. Associated Press.
SAN FRANCISCO, Aug. 14.—When "the tumult and the shouting dies" and the men of the Pacific fleet settle down to the going business of safeguarding American west coast, one of the memory pictures that is going to remain in their minds for many a day is the picture of six aeroplanes from Rockwell field, swooping down over the decks of the giant war craft and raining "smomes" in the astonished sailors.

It was but one of the ways in which "Casey kept coming"—a way in this instance, as on the European continent, being the Knights of Cygnus secretaries.

When word reached Art Seal, K. C. secretary of Rockwell field, that the boys of the fleet were "smoke and grizzle" he ordered to the commandant for pass. The Knights supplied the smokes, thousands of cigarettes, cans of cigars, and soon the big aeroplanes were on their way, laden with smoke "smomes" of a new type, which they dropped with carrying arm on the decks of the warships.

The aeroplanes were part of a 2,000-man regiment that is to be sent to the fleet by Albert G. Bagley, director of the western department war activities, reports of 20 miles from headquarters at San Francisco.

Meanwhile A. Neal, secretary at Rockwell field, Secretary of the Pacific, is to be "smoke and grizzle" and the Knights council in the southern part of the state will be welcomed in preparing a "smome" for welcome as the knights stage in the "smomes" to officers and men of the fleet.

At the request of the Chamber of Commerce, the knights arranged a huge affair in the Plaza de Panama at San Diego, where the "gobs" were assured of meeting the cream of the city's young womanhood. Fully 10,000 dancers took part in the ball, while airplanes rained flowers on the dancers. A hundred clowns, engaged by the knights, acted as ushers and introducers, and in other ways made themselves useful to the visiting seamen.

A traveling K. C. "hut," mounted on a motor truck, brought stationery, ice cream, sandwiches, candies and smokes to the sailors, wandered about the city and stopping wherever a knot of tars had gathered. The local councils kept open house, providing beds and breakfast for all comers from the fleet.

"German war debt overseer needed" says a current headline. Another Dixie Democrat out of a job? Honduras has a regular Jack Dempsey president. He declared civil war before the rebels had a chance to do it.

One home industry which congress seems not inclined to nourish is the home beer industry.

No 11 o'clock hunger after this breakfast

When it's warm weather and you don't want to eat a lot of heavy food—then an Aunt Jemima breakfast fills the bill better than ever! For these golden-brown, tender cakes "stay with you" when a less satisfying breakfast won't, and you don't get that starved feeling along towards noon.

Just the breakfast for summer, because Aunt Jemima Pancakes are famously easy to prepare, too. All the ingredients come ready mixed in the flour—even the sweet milk (powdered). The simple addition of water makes perfect pancakes. Get a package from your grocer. It makes delicious muffins, too.
